CRICKET TRAINING MANAGEMENT SYSTEM

Relational Schema and Attribute Connections

Notation: PK = primary key; FK = foreign key. Entity and attribute names follow the supplied ER diagram. FK mappings below are inferred from the drawn relationships.

TABLE	ATTRIBUTES
USER	User_id (PK), Name, Password, Role, Phone, Address
CRICKETER	Cricketer_id (PK), DOB, Gender, Batting-Style, Bowling-Style, Experience, User_id (FK → USER.User_id)
TRAINER	Trainer_id (PK), Specialization, Experience, Qualification, Salary, User_id (FK → USER.User_id)
CRICKET_PROGRAM	Program_id (PK), Program_name, Duration
EQUIPMENT	Equipment_id (PK), Equipment_name, Equipment_type, Total_Quantity, Availability, Quantity
VENUE	Venu_id (PK), Venu_name, Location, Capacity, Availability
TRAINING_SESSION	Session_id (PK), Session_date, Session_time, Status, Trainer_id (FK → TRAINER.Trainer_id), Venu_id (FK → VENUE.Venu_id)
PAYMENT	Cricketer_id (FK → CRICKETER.Cricketer_id), Program_id (FK → CRICKET_PROGRAM.Program_id), Payment_Status, Amount, Due_Date, Payment_Date
EQUIPMENT_ISSUED	Cricketer_id (FK → CRICKETER.Cricketer_id), Equipment_id (FK → EQUIPMENT.Equipment_id), Issue_date, Return_Date, Quantity, Issue_status
APPLIED_TO	Cricketer_id (FK → CRICKETER.Cricketer_id), Program_id (FK → CRICKET_PROGRAM.Program_id), Applied_status, Applied_date
PARTICIPATE_IN	Cricketer_id (FK → CRICKETER.Cricketer_id), Session_id (FK → TRAINING_SESSION.Session_id), Participation_time, Attendance

Foreign-key connections

FK ATTRIBUTE	REFERENCES	RELATIONSHIP
CRICKETER.User_id	USER.User_id	HAS
TRAINER.User_id	USER.User_id	HAS
TRAINING_SESSION.Trainer_id	TRAINER.Trainer_id	CONDUCT
TRAINING_SESSION.Venu_id	VENUE.Venu_id	HOST
PAYMENT.Cricketer_id	CRICKETER.Cricketer_id	PAYMENT
PAYMENT.Program_id	CRICKET_PROGRAM.Program_id	PAYMENT
EQUIPMENT_ISSUED.Cricketer_id	CRICKETER.Cricketer_id	EQUIPMENT ISSUED
EQUIPMENT_ISSUED.Equipment_id	EQUIPMENT.Equipment_id	EQUIPMENT ISSUED
APPLIED_TO.Cricketer_id	CRICKETER.Cricketer_id	APPLIED TO
APPLIED_TO.Program_id	CRICKET_PROGRAM.Program_id	APPLIED TO
PARTICIPATE_IN.Cricketer_id	CRICKETER.Cricketer_id	PARTICIPATE IN
PARTICIPATE_IN.Session_id	TRAINING_SESSION.Session_id	PARTICIPATE IN

Important: The ER diagram does not explicitly specify every FK attribute or the primary keys of relationship tables. Relationship-table key choices and cardinalities must be confirmed before the CREATE TABLE scripts are finalized.

RELATIONAL SCHEMA DIAGRAM

Arrows point from a foreign key to the referenced primary key. Relationship tables are shown separately.

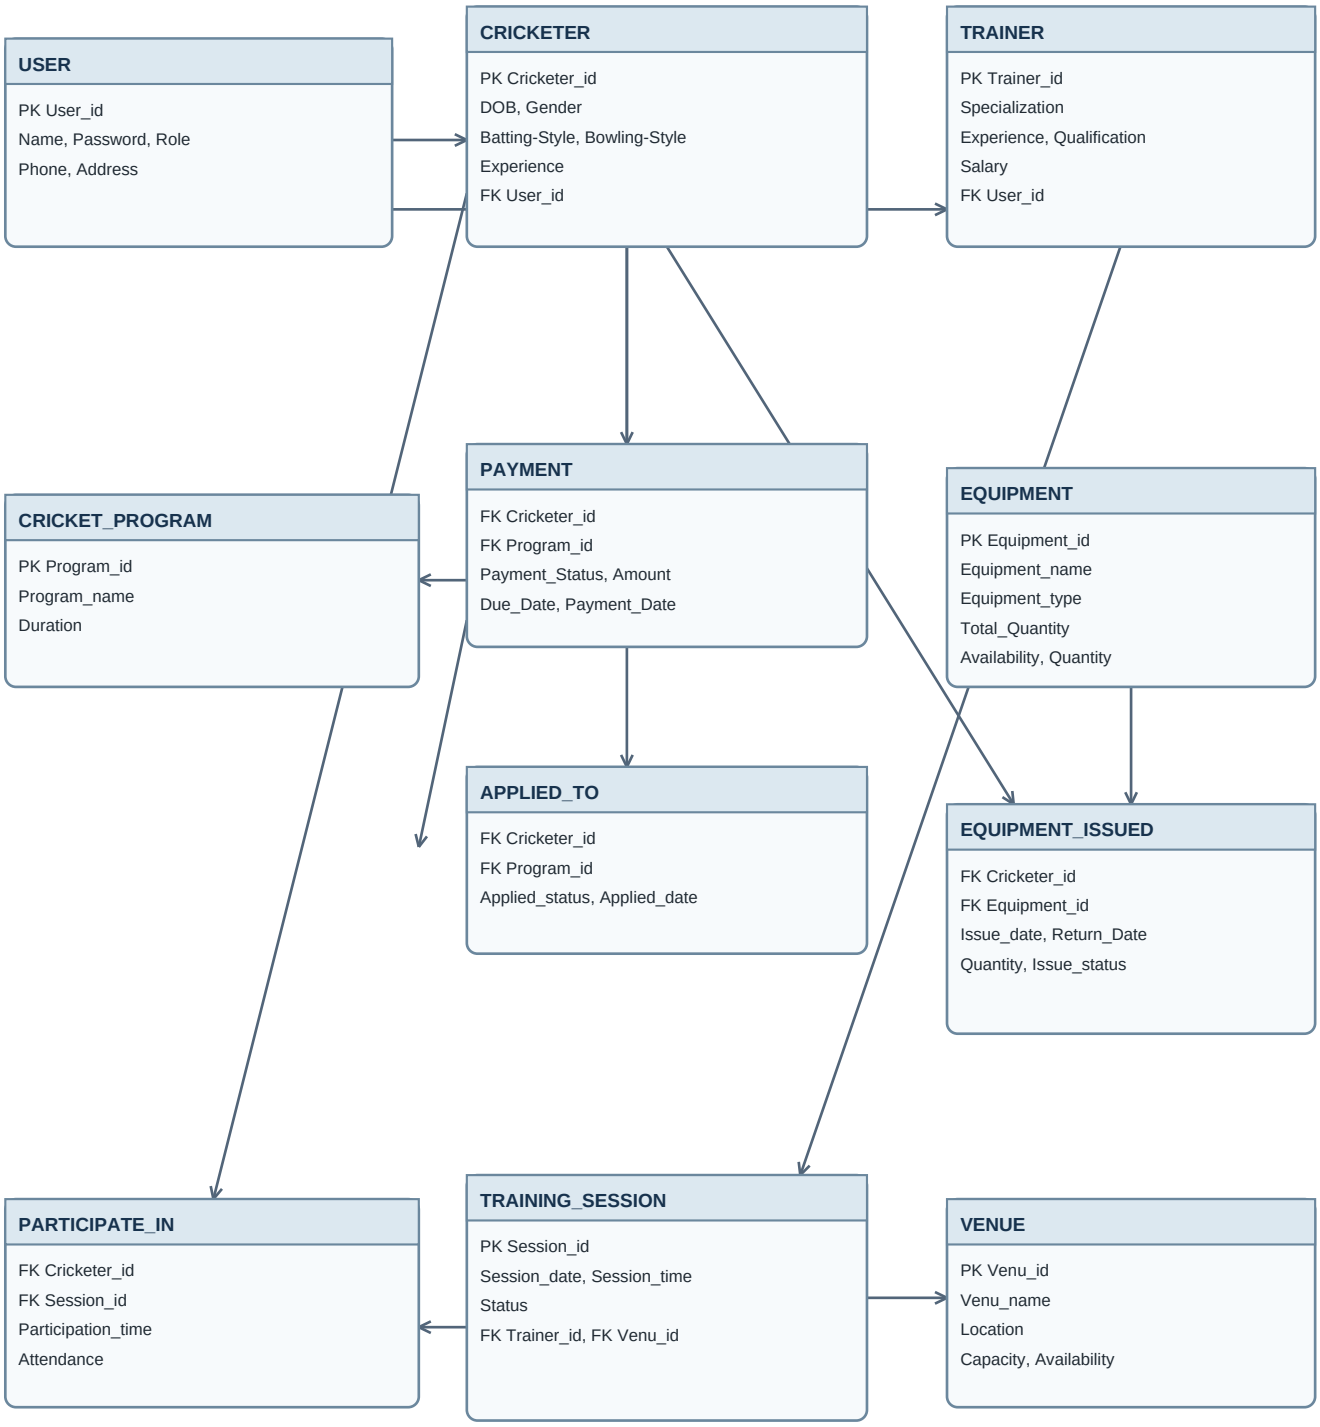

Diagram note: Connector placement is schematic for readability; use the relationship table above as the precise FK reference list. The primary keys for PAYMENT, APPLIED_TO, EQUIPMENT_ISSUED, and PARTICIPATE_IN are not fully specified by the ER diagram and require confirmation.
